Utilities Board Report

Ready for Public

Council Decides to Place Full Information Before Ratepayers at Public Meeting on Jan. 18

A special meeting of the town council was held on Tuesday evening to receive the report of the Commissioners of the Public Utilities Board of the province on the appeal of the Coleman Light & Water Co. Ltd., made early last year for an increase in the rates to consumers. The report covers over nine closely typewritten pages, and goes very thoroughly into all phases of the basis on which the appeal was made, and also the capital cost, operating cost, life of the water and light plants and various other matters. As stated briefly in last week's issue, the appeal for the increase was not allowed by the Utilities Board, and their reasons are fully set forth in the report.

The council decided that as the report is of particular importance to the ratepayers, that a public meeting be called on Wed., January 18th, at 8 p.m., when the report in detail will be presented for their information.

Following the consideration of the report, some items of general business were taken up which the council deemed necessary to deal with prior to the regular meeting. Those present at the meeting were Mayor Burns, Councillors Sam Moores, G. Pattinson, J. Moores, J. Rushton, Wm. Fraser, Walter Nelson, and J. Ford, secretary.

Cold Had No Terrors For These Boys

Disdaining the warm comforts of home and meeked cooked by fond mothers, a group of boys struck out last week to indulge in a camping expedition at Crow's Nest Lake. Here they occupied a summer cottage, which by most people would not be considered an inviting place with a sub-zero temperature. But these were no tenderfoot boys; they were of the calibre that would tell you they could chew nails for breakfast and go out and hunt rabbits or a yother unfortunate creature that didn't move fast enough to get out of their path. The party consisted of David Flynn, Hugh Dunlop, Jack Price and Lorenzo Richards. Loaded with the necessary canned goods and maybe hard tack, they struck out with their packs with the air of old prospectors on the trail.

As the week wore on and the temperature continued to drop till it was hitting around 40 below, anxious parents became concerned for their safety, and conjured up visions of dire calamity, until one fond parent sent a taxi driver out to bring them home. But though two of the party evidently decided that discretion was the better part of valor, and returned home, two tougher and more impervious to the cold than others, decided to "stick it out" and let it be known they would come back as soon as the attractions of the cabin faded or there were no more jack rabbits to round up. So stay they did till Saturday afternoon, when they returned by the same route they had gone out, by the "Shanks pony" method. After that 60 and 60 below zero is just merely cool weather for them, and just to show that they were still capable of taking a little more exercise, they strolled down to the rink and spent the evening among their friends disputing themselves with an air as much as to say "We're in it."

Bucking the Elements

Contractor D'Appolonia steadily maintained work on the excavation for the new bank building up till Friday. Even when the temperature was 20 below zero he was not to be daunted, and kept fire going to thaw out the ground as the digging proceeded. But the elements proved to much when the thermometers in town registered from 40 to 45 below. The motor trucks for hauling froze up, the ground froze up and "Dap" had to acknowledge it was a losing battle trying to fight such a temperature as that and proceed with the work.

Mrs. Balloch Laid To Rest Sunday

On Sunday afternoon the funeral service for the late Mrs. Balloch, whose death occurred on Thursday morning last, was held at the family residence, the Rev. H. D. Bevan of the United Church officiating. Members of the L. O. B. A. lodge also held a short service, deceased having been an officer of that lodge.

The pall bearers were D. Gillespie, Neil McKinnon, A. McCulloch, Wm. Ramage, M. Wilson and Wm. Fraser. There were many floral tributes from the family and friends, and following the service at the house the body was borne to the cemetery and laid to rest.

The family came to Coleman five years ago from Fifeshire, Scotland, and to mourn the loss of a devoted wife and mother are a husband, and two sons, Alex. and William, who are attending high school in Coleman.

Deceased was 38 years of age, and had been ill for about a month, first being operated on for appendicitis, and later for tumors, and it was following the latter operation last week that she died. The sympathy of their friends and acquaintances is extended the family in their bereavement.

Card of Thanks

Mr. John Balloch and sons, desire to express their appreciation of the sympathy and kindness extended them in their sad bereavement, also the doctors and nurses for their kind attention during Mrs. Balloch's illness.

Palace Theatre

A very fine production is promised for the Palace theatre on Friday and Saturday in the presentation of a thrilling naval picture, an all-British production entitled "Second to None." This is produced by the same company that produced "The Flag Lieutenant," which was shown at the Palace a few weeks ago and was acknowledged as one of the finest pictures that had shown in Canadian theatres. In addition there will be the Fox Weekly and a comedy.

Special Announcement

Members and adherents of the United church are asked to remember the Propagatory Service on Friday evening in the club room. This service will also include the reception of new members. There should be a good attendance.

Merchants' Advertising
novelty or calendars can be ordered through The Journal office. Wait and see our samples which will arrive shortly.

Anglican W. A. Enjoy

Christmas Party

Entertained by Mrs. F. G. Graham and Delighted With Presents from Christmas Tree

A very enjoyable evening was spent on Thursday, Dec. 29, when the members of St. Alban's W. A. were the guests of Mrs. F. G. Graham. Guesting contests afforded instruction as well as amusement, the lucky winners receiving dainty prizes. The feature of the evening was a Christmas tree laden with gifts provided by the W. A. for its members. In addition to these gifts Mrs. Cornett, Mrs. G. A. Brown and Mrs. W. Jackson were the recipients of handsome gifts from the W. A. for their services as president, secretary and church organist respectively. Dainty refreshments were served by the hostess and the evening closed with a hearty vote of thanks to Mrs. Graham for such a pleasant evening, which will be remembered by the ladies of the W. A.

Would Attract More Tourists

A Calgary citizen, James W. Davidson, after visiting the Alpine Switzerland, makes the suggestion that a cog railway be built so that tourists could be taken up Mt. Assiniboine and obtain magnificent views of mountain scenery. The proposal has much to commend it. The Canadian Rockies have unlimited attractions for the tourist, and the more that is done to popularize these attractions the greater benefit will result from the tourist traffic.

Antrobus' Sell Good Shoes

Express Cargo Steamers For C. P. R.

The fourth of the five 10,000 ton cargo steamers under construction in the Old Country for the Atlantic service of the Canadian Pacific was launched recently from the yards of Messrs. Barclay, Currie and Co., Glasgow. With appropriate ceremonies and in the presence of a large gathering of Canadian Pacific officials, the new ship was christened the "Beaverhill" by Miss Maria Gillies, (niece) daughter of Captain James Gillies, general manager of the Canadian Pacific Steamships Ltd.

When these new steamers are delivered, the Canadian Pacific cargo fleet will be augmented by five of the highest type of express cargo steamers and capable of maintaining a speed of 14 knots an hour, which is regarded as exceptional for cargo steamers. The marked growth of ocean trade between Great Britain and Canada via the St. Lawrence route, has prompted the Canadian Pacific to augment their freight service to this extent. These vessels will be used to maintain a weekly service between Canadian ports and those in Great Britain and on the Continent.

The new freighter, like her sister ships the Beaverburn, Beaverville, Beaverford and Beaverbank, is 520 feet in length 81 and a half feet in width with a deadweight carrying capacity of approximately 10,000 tons and load draft of 27 feet; but should a need arise as much as 13,000 tons may be carried on the maximum load draft. The ships will be driven by twin screws.

Winter Sports Carnival

at Banff Feb. 4 to 11

Schools Being Encouraged to Send Teams to Compete in the Various Events

Announcement that an inter-scholastic sports meet will be a new feature of the Banff winter sports carnival, has been taken up with interest by the various schools throughout the West according to information received from Banff Winter Sports Association. This feature of the sports program, to be devoted entirely to junior scholar contests, will be a new venture of the carnival, which is scheduled to take place February 4 to 11. Interest in this junior meet has been further stimulated by the fact that a handsome challenge cup has been donated for the championship team by the Hon. R. B. Bennett, who is keenly interested in the progress of the winter carnival and particularly in connection with the part to be taken by the various school teams.

Toronto Star Says:

The day has gone when self-respecting journals are prepared to sink their independence into a slavish obedience to the dictates and behests of a party. This does not mean that a newspaper may not espouse a party cause or advocate the policy of some particular political group. It does mean that a paper reserves the right to commend or condemn, as the case may be, whatever is in the best interests of the public or otherwise. Most people today recognize this as the only logical policy for a newspaper to pursue. It is for the good of every one, and not the least to benefit are the party groups themselves.

New Provincial Hospital Soon Ready for Use

The new hospital being established by the Provincial Department of Health for the treatment of patients from all parts of the province suffering from the after-effects of infantile paralysis will be ready for use early in January, it is announced by Hon. George Hoadley, Minister of Health. The new building is being erected by the department of public works on the grounds of the University Hospital in Edmonton.

Elks Dance Proved Very Enjoyable

The annual dance under the auspices of the Elks lodge on Friday evening set the high mark for enjoyable affairs of that nature this winter. Held in the dining room and rotunda of the Grand Union hotel, the novel feature of being held in different surroundings to previous dances gave an edge to it and the results fully justified the dance being held in such a fine hostelry, which is so efficiently managed by Mr. and Mrs. W. Bell.

During an interval two songs were very nicely given by Mrs. Jones, entitled "The Roary" and "My Ain Folk." Dancing continued till after 2 a.m., and even then the dancers were very loath to quit.

Souvenir of the War

R. Parry is in the hospital suffering from a sore neck. Last week Dr. Borden extracted a piece of shrapnel which had been there since his war days for a newspaper years ago.

Cause of Business Failures

Over buying is stated as the most destructive cause behind business failure. Over buying frequently results from over-selling. Lack of capital wrecks thousands of businesses yearly. Over 75 per cent of the businesses of the country net less than \$5,000 annually. Failure to keep abreast of the best in business practice is rated as the third leading cause of failure. Inadequate accounting and ignorance of costs and profit margins is the fourth most important cause.

Other causes, each worth consideration of our readers, are given as follows:

- (1) Failure to take a legitimate profit;
- (2) increased cost of doing business;
- (3) ignorance of overhead expenses;
- (4) poor collection;
- (5) cut rate competition;
- (6) undue eagerness to make a big splash;
- (7) failure to know the local market;
- (8) poor stocks;
- (9) failure to create store personality;
- (10) poor equipment and fixtures;
- (11) unsupported advertising.

Rebekah Prize Winners

Prize winners at the Rebekah whist drive on Saturday were Mrs. J. Rogers, and Miss Mercer, consolation. The gent's prizes went to Mr. Isatt and McKean Hunter, while the travelling prizes were won by Mrs. J. Emmerson and Mr. Morris.

Quick Work

Telephone service was resumed again on Friday, reflecting credit on those responsible for the repairs following the destruction by fire of the central office and switchboard.

Earle Nelson, the notorious dark "strangler," will be executed in Winnipeg on January 13.

LeGal Ranch West of Town Sold This Week

Pioneers of District to Leave After 26 Years Residence in Valley West of Town

After many years residence on their ranch west of Coleman, Mr. and Mrs. Peter LeGal have decided to sell and later will move to Blairmore. They came from near Paris, France, about forty years ago, first settling in Prince Albert district, Sask., and in 1902 they came to this district, settling on their ranch in the valley alongside the Old Man River, in the days before the town of Coleman was established. A paralytic stroke some four years ago has been a severe handicap to Mr. LeGal, consequently they have decided to sell, Laddie Krish of Coleman being the purchaser.

St. Alban's Church

Service on Sunday at 7 p.m. Sunday School at 8:30 p.m.

The W. A. will meet on Thursday at 7:30 p.m. New members are cordially invited to attend and join up in the year 1928.

Junior choir practice on Friday evening at 7 p.m.

The books will be closed for the year 1927 on Monday next, Jan. 9. All envelopes and donations given up to that date will be credited to the year 1927. Please help, as we still have some liabilities—A. D. Currie, incumbent.

More Publicity for the French

Foreign Legion

Since the showing of "Beau Geste" the French Foreign Legion has received considerable publicity. One ex member is now writing newspaper articles telling his experiences, while another in London, Eng., is telling people what a terrible life it is in the Legion. So it was in the Great War, but we have not heard many returned soldiers rushing into print about it. The experiences of that chap whose stuff is now appearing in the dailies is not very much different from that of any "Tommy" who has had a touch of the real thing. There was a darned more kick to a trench raid than any of Mr. Doty's voluminous record as far as it has gone. One cannot blame Ex Legionnaire Doty for getting a piece of change for his articles, but how many newspapers would consider for a moment publishing stuff from any soldier who was drummed out from either the British or American armies?

IMPORTANT NOTICE

The Dependable Dairy and the Coleman Dairy hereby give notice that henceforth milk bottles must be left out by all customers daily, otherwise if this is not done milk will not be left by either of these dairies. This action is necessary owing to the heavy loss that has occurred in milk bottles from apparent breakage or other causes, which the dairies are unable to continue to suffer.

WM. ANTROBUS,

Dependable Dairy.

JAMES FILAFILO,

Coleman Dairy.

Broken bottles will be charged for at 20c for qts., 15c for pints, and 10c for half pints.

Antrobus' Sell Good Shoes

United Grain Growers, Limited

Twenty-Year 5% First Mortgage Bonds

Due January 2nd, 1948

These Bonds offer an attractive opportunity for investors and should particularly appeal to residents of Western Canada because of their familiarity with the business of United Grain Growers, Limited, and the success that has attended its operations during the last twenty-one years.

The new issue of \$3,750,000 First Mortgage Bonds is for the purpose of retiring outstanding obligations and of re-investing the Company for expenditures in connection with the newly completed 5,500,000 bushel elevator at Port Arthur and the recent acquisition of certain country elevators.

The Bonds are adequately secured by assets, while, for five years ended August 31, 1927, net earnings available for interest and depreciation have averaged more than 4 1/2 times annual interest requirements on all Bonds to be presently outstanding.

Bonds may be obtained in denominations of \$500 or \$1,000. Principal and half-yearly interest are payable at any branch in Canada of The Royal Bank of Canada.

Price: 96.25 and interest, yielding over 5.30%

Fully descriptive circular will be gladly furnished upon request.

Britain Forges Ahead

Those prophets of gloom who have been predicting the rapid decline of British power and prestige throughout the world, and those with whom the wish for such a catastrophe has been the father of the thought, must surely be beginning to realize that they will have to revise their opinions and recall their predictions. For evidence accumulates, and fact is being piled upon fact, which go to demonstrate the virility, prestige and power of the Old Land and the Empire as a whole.

Notwithstanding the fact that Germany was practically hitherto against Britain for entering the world war, the hymn of hate between them has now changed to one of admiration. The British entry into the conflict speedily defeated Germany. It is a fact today that a more friendly feeling exists in Germany towards Britain than is entertained for any other nation which was allied against her.

For a time the anti-British feeling in China was interpreted as being largely an anti-British feeling, for the cultivation of which Soviet Russia was largely responsible. But the inevitable reaction has now set in as the true designs of Russia and the true nature of British policy is becoming disclosed and understood.

At the meeting of the Institute of Pacific Relations held at Honolulu last July, Sir Frederick Wylie, chief unofficial spokesman for Great Britain, presented a memorandum on the history of Anglo-Chinese relations from the time of Lord Macartney's mission in 1783 down to the famous communication of Sir Austen Chamberlain of a year ago. This memorandum dealt fairly with the mistakes made by both nations, and it demonstrated from the past acts of Great Britain that the conciliatory attitude of Sir Austen Chamberlain's document was the logical outcome of these acts.

It is interesting to recall at this time, when the Nationalists of China are breaking off diplomatic relations with Soviet Russia, the manner in which Sir Frederick Wylie's memorandum was received by the Chinese Nationalist delegates at the Honolulu meeting. These delegates had distributed in advance a printed case against Great Britain, which was replete with sharp criticisms on British foreign policy. But when Sir Frederick presented the other side, so impressed were the Chinese delegates by its fairness and by the British point of view that they withdrew their own document and asked for the return of the copies distributed. This is hardly a sign of British decadence in world affairs, or an evidence of loss of prestige. The fact that anti-British feeling in China is gradually dying down is the result.

Surely and steadily Great Britain is regaining her position as the financial centre of the world. The pound sterling has returned to par, even in New York, and the flow of gold, which has been almost continuous to the United States for some years past, has recently had an effect in the first shipment from New York to London. Great Britain continues promptly on due date to make her enormous payments to the United States on account of war obligations, and with every payment her position becomes stronger.

British financial institutions and industrial concerns are more and more regaining their position in world markets, and whereas during the war British investments and securities in foreign lands and in the overseas Dependencies had to be withdrawn in order to carry on the grim struggle, British investors are again active throughout the world.

As carriers of the commerce of the world, and the great commercial clearing house for all nations, Britain remains supreme. In ship building, despite all the efforts of other nations, Britain retains the leadership by a wide margin.

And to this general improvement in position the overseas Dominions of the Empire, led by Canada, are contributing an ever increasing share.

Prince Of Gyries

Buried In Splendor

Thousands Of Delegates Attended Funeral In Czechoslovakia

Dressed in medieval splendor, Horvath, Prince of the Gyries, has been borne to his grave in Parkany, Czechoslovakia, while thousands of Central European gyries mourned at his bier.

His coffin was of ebony and his body dressed in rich silk brocade. In his hand was a whip to symbolize mastery over horse and wife, while at his feet were wine and liquor bottles so that he might toast his old friends in Limbo.

At least a thousand delegates from

Burgundian, Hungarian and Rumanian gyries tribes attended the funeral, headed by 30 musical bands, most of them on horseback.

Medical Clinics In Egypt

Government Using Modern Method To Quell Old Disease

Ancient Egypt is to be enlisted to fight anti-modern plagues in Egypt, such as bilharzia.

The Egyptian Government has just come to terms with the Rockefeller Foundation for the establishment in Egypt of clinics for the treatment of intestinal and parasitic diseases. The Foundation will pay salary of an American sanitary engineer, who will be provided by the Egyptian Government with a staff, offices and accessories, and the Government will exempt from customs dues all imports from the United States required in the prosecution of the work.

Call a man a diplomat instead of a liar and he will be well pleased; yet it amounts to about the same thing.

The thoughts of a music composer should be noteworthy.

Titled Taxi Drivers

Many Russian Nobility Are Chauffeurs In Paris

There was a time when the Paris taxi drivers were simply bachelors of art and candidates in philosophy. This has all changed. They are now Counts, Dukes, Marquises, Colonels and Generals. The Russians have also been picked out by their gracious manners, their broad smiles, their ignorance of the city map, and I believe they swear by St. Anastasia instead of a real Gallic Saint. Indignant Popuists have written to the papers recently that these Russian ex-Grand Dukes and Cossack Hetmans are not only ignorant of the Paris labyrinth, but that they refuse to learn their geography. One lady reports that the driver took her for a long ride, altogether out of the direction of the address she had given, and persisted in looking around at his charge with a broad smile. As he kept up a brisk pace and a brisk pace in Paris means something she did not venture to jump out. Finally they were halted by a signal at a crossing. The lady called a gendarme. "What do you mean?" asked the driver of the chauffeur. "Don't you know the streets?" "Sir," replied the ex-Colonel or ex-General, "your Commander-in-Chief has never sent me the plan. How can I advance without maps?" A phrase reminiscent of the Russian front, perhaps.

A PERFECT MEDICINE FOR LITTLE ONES

Baby's Own Tablets Should Be In Every Home Where There Are Children

The perfect medicine for little ones is found in Baby's Own Tablets. They are a gentle but thorough laxative which regulates the bowels, sweetens the stomach; drive out constipation and indigestion; break up colds and simple fevers and promote healthful refreshing sleep. It is impossible for Baby's Own Tablets to harm even the newborn babe, as they are fully guaranteed free from opiates or any other injurious drug.

Concerning the Tablets, Mrs. Alex. J. Perry, Atlantic, N.S., writes:—"I always keep Baby's Own Tablets in the house for the children, as I have found them a perfect medicine for little ones."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Farmers Lose Money

Better Handling Of Cream Would Reduce Losses

Saskatchewan farmers lost considerably more than \$50,000 during the year ended October 31 as a result of cream being graded down for various causes, according to Percy J. Root, dairy commissioner for Saskatchewan, broadcasting a lecture under the auspices of the Saskatchewan Farmer Radio Farm School.

Better handling methods would have saved a good deal of this loss, Mr. Root declared. During the period under review there were 83,093 cans of cream graded No. 2 or "off" because of high acidity or the presence of other undesirable foreign flavors.

This, however, only provided for 13.5 per cent. of the total output, the remaining 86.5 per cent. grading No. 1 or better.

Of the total amount graded down 15.6 per cent., or 12,944 cans, was put down because of bad flavors in the cream and French weed, or stink weed as it is more popularly known, was largely responsible for this.

Miller's Worm Powders will drive worms from the system without injury to the child. The powders are so easy to take that the most delicate stomach can assimilate them and welcome them as speedy cures of pain, because they promptly remove the worms that cause the pain, and thus the suffering of the child is relieved. With so sterling a remedy at hand no child should suffer an hour from worms.

The Destruction Of Wolves As a result of the efforts of the North West Territories and Yukon Branch of the Department of the Interior, Canada, 680 wolves were destroyed during the last recorded fiscal year by natives and white men.

More than half the people in the world live in Asia, on less than one-fourth of the earth's surface.

Cancer Research

Investigations Carried On In England For Quarter Of A Century

The 25th annual report of the Imperial cancer research fund recently issued in London, tells a story of patient investigation which for a quarter of a century has been in progress. Unhappily there is as yet no indication that the goal of the work is in sight.

Dr. Murray the director of the fund, deals at some length in the report with the disputed question whether or not cancer is a solitary invader of the body—that is to say, whether or not two or more cancers can be together and co-exist as do, for example, warts. Dr. Murray believes that the evidence he has obtained justifies him in accepting the "solitary" view. This is a matter of some importance because if it be true that a second cancer cannot easily grow in a body in which a cancer is already established, then presumptive evidence exists that the body does make an attempt to rid itself of cancer, and hope is engendered of being able some day to make use of this natural healing power.

Many Radio Users

200,000 Radio Licenses Issued In Canada

Radio licenses issued throughout Canada to the end of November amounted to 203,000 and it is estimated that those listening in aggregate a million. The licenses issued, it is believed, do not represent more than half of the users and a campaign is now on against the delinquents.

Of the total licenses by provinces the figures show that Ontario has 102,540; Quebec, 41,270; Saskatchewan, 15,712; British Columbia, 14,963; Manitoba, 14,183; Alberta, 9,362; Nova Scotia, 5,123; New Brunswick, 2,865, and Prince Edward Island, 245. Toronto has 33,880 issued licenses; Montreal, 27,982; Ottawa, 6,068; Winnipeg, 7,631; Vancouver, 6,386; Victoria, 2,822; Regina, 832; Saskatoon, 1,086; Calgary, 890; Edmonton, 2,538; London, 3,393; Hamilton, 4,482; St. John, 282, and Halifax, 1,616.

The Proven Asthma Remedy. Since asthma existed there has been no lack of much heralded remedies, but none have proved short, lived and worthless. The ever-growing reputation of Dr. J. A. Kelly's Asthma Remedy has given it a place in the field of medicine which no other can approach. It has never been pushed by sensational methods, but has time gone on effecting relief and making new converts.

The Wonder Of Dry Ice

New Product Evaporates Slowly and Leaves No Liquid

In a recent electrical exhibition in New York, a castle was shown made of dry ice. One of the wonders of the new product is that it does not leave any liquid as it slowly evaporates. It is solid carbon dioxide which has been frozen to a temperature of 109 degrees below zero.

The principal use of dry ice is for the refrigeration of perishable foods in transit. This may be a pint of ice cream which the housewife is carrying home from the store, or a refrigerator car of fruit speeding from the west coast of Ontario.

To carry home the ice cream, the pint package of the cream is placed in a slightly larger paper package which permits a piece of dry ice to lie against the package of cream. On arriving home the housewife can leave the package of cream standing on a table for six hours because the dry ice lasts that long.

Next summer on those hot days you can carry a picnic around in your pocket and keep cool.

A Wish For Lindbergh

The youth of a country might be worse employed than in admiring the Lindbergh type of character. Canadians share with Americans the hope and prayer that Lindbergh may come safely to the end of his every aerial flight and live in health, joy and wealth, to die in bed at a great old age.

London has a tipless hotel. Patrons are firmly but courteously notified that it is against the rules of the hotel to offer tips. The servants are well paid, and reservations at this hostility are always at a premium.

A short walk daily will benefit any man in the long run.

Tibet Closed To Foreigners

People Are Angry Over Statements Made By Explorer

The secretary of the Royal Geographical Society is unable to confirm the statement made by Captain Odell in New York that a new expedition to climb Mount Everest was being organized. Captain Odell was a member of the society's 1924 expedition.

The India Office states that the next expedition to Mount Everest will not be made for some time, owing to the anger of the Tibetans at statements made by an explorer following his re-explorer in said to have exhibited on European lecture platform two Tibetans as priests of the Dalai Lama, ruler of Tibet. When these statements drifted back to Tibet, the Lama was so enraged that he refused to permit any more foreigners to visit the country. Under an agreement with the British officials in India foreigners are kept back from the gateway to Tibet by the British.

The latest explorer is said to have broken his word to the British, causing the Lama to lose confidence in him and to deny entrance to all foreigners.

At that time the British Government was negotiating with the Lama in behalf of the Royal Geographical Society which desires to continue the exploration of Mount Everest. The society was forced to postpone the expedition, but when the Lama again decides to receive visitors to his mysterious country, they will probably be the first guests.

The India Office said no negotiations were being carried out at present, but it received an inquiry some time ago from a German explorer connected with the Berliner Tageblatt as to the steps necessary for making the trip by way of British India.

For Both House and Stable. There is a good deal of similarity, when speaking, between human beings and the lower animals. Both are subject to many ailments arising from inflammation and to all manner of cuts and bruises. Dr. Theobald's Eucletic Oil is an entirely reliable remedy for such ailments and is available in both human beings and the lower members of animals.

Even the man with a lot of ketchup about him can't resist the temptation to remain under the covers for 30 minutes after the alarm clock goes off.

Whether the corn be of old or new growth it must yield to Halloway's Corn Remover.

Picking half weevils off of cotton sometimes is more lucrative than picking the cotton itself. J. R. O. Lindsey, Richmond, Va., recently shipped 72,000 of the pests to the Florida State Agricultural College at \$2.50 a thousand. At that rate a fast picker could earn \$10 a day.

The number of bicycles used in France in 1926 amounted to 7,112,300—ten times the number of automobiles in use during the same year.

Keep a Box Always Handy!

Zam-Buk provides an ever-ready and reliable first-aid for injuries. It is also unequalled as a soothing, speedy remedy for obstinate and deep-seated skin diseases, poisoned wounds, ulcers, piles, etc.

Within every box of Zam-Buk are stored the most valuable healing, soothing and antiseptic properties known to Science. Its unique herbal composition and its absolute freedom from animal fats and mineral drugs make Zam-Buk the safest and best dressing for skin troubles of all kinds.

Use a six-oz. of this great herbal balm on your druggist or druggist to mail FREE TRIAL SAMPLE.

Nothing Like Zam-Buk FOR THE SKIN

Smelter Doing Big Business

Plant At Trail, B.C., Pays \$1,000 Per Hour In Wages

Some interesting figures in connection with the plant operated by the Consolidated Mining and Smelting Company at Trail, B.C., have been made public by W. E. Payne, secretary of the Vancouver Board of Trade, following a recent visit into the interior.

The smelter has a capacity of 750 tons of refined metals per day, and it is the largest metallurgical plant in the world.

The lead output is 410 tons daily, or one-tenth of the world's entire output.

The copper output runs 70 tons daily.

During the past year the plant has required 5,000 tons of construction steel, 3,500,000 bricks, 4,500,000 ft. of lumber, one carload of cement every two days, 118,000 tons of coal per year and 62,400 tons of coke per year.

The freight bill last year was \$3,600,000, or 1 per cent of the total freight paid in Canada.

Eight million dollars were paid out in wages, or approximately \$1,000 per hour. Added to this cost of supplies would bring the expenditure to almost \$3,000 per hour.

Last year the company earned profits of approximately \$1,000,000.

Home workers in Saxony received less than 21 cents for fastening 1,000 pounds of bristles into brushes, according to a new wage scale.

To break a cold harmlessly and in a hurry try an Aspirin tablet. And for headache. The action of Aspirin is very efficient, too, in cases of neuralgia, neuritis, even rheumatism and lumbago! And there's no after-effect; doctors give Aspirin to children—often infants. Whenever there's pain, think of Aspirin. The genuine Aspirin has Bayer on the box and on every tablet. All druggists, with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer's Manufacture. While it is well known that Aspirin never harms the heart, the public against imitations, the Tablets will be stamped with trade "Bayer Cross" trademarks.

Sore throats
Rub Vicks on throat and chest. Relieves two ways at once—absorbed, inhaled.

MISSIONARIES ARE RESCUED BY BRITISH MARINES

Hong Kong.—Arrested December 23 for preaching and practicing Christianity, and held captive for nearly a week near Swatow, 50 miles from Hong Kong, a party of 10 Italian and Chinese priests and nuns has been rescued from Communists by the British destroyer Seraph.

A Chinese convert, who came here from Swatow reported to the Catholic Bishop that one Chinese and two Italian priests and seven nuns were held prisoners and that the Chinese priest had been sentenced to death, that the mission building, convent and orphanage had been sacked and closed down.

The Bishop communicated with Admiral Sir Reginald Tyrwhitt, commander in chief of the British naval forces, who immediately ordered the Seraph to proceed to Swatow where the prisoners were rescued.

The Communists were at first reluctant to give up a Chinese priest and only consented when informed that he was a British subject.

The commander of the destroyer set a time limit for his delivery. The destroyer cleared for action and landing parties were sent on shore.

The missionaries had given up all hope when the destroyer appeared. At this show of force, however, they were handed over to the British officers.

European priests give terrible accounts of cruelties and executions witnessed daily from the prison windows.

Severe Weather In Europe

Seven People Perish From Cold In France

Paris.—Northeasterly gales with snow, which have been raging along the entire Atlantic seaboard, from Dakar to Dunkirk, have brought Europe and Africa to a realization that winter has come.

Cherbourg reported an 80-mile gale, Calais and Boulogne channel services have been interrupted and the air service between Paris and London has been entirely cancelled. Variable mountain winds are swilling shipment from all French ports.

Seven lives are reported lost in France alone, mostly in the northern sections, where the buried under 15 inches of snow. Floods are threatening Tihart, Casablanca, and the Moroccan rivers are overflowing in torrents, especially the Ouergha, where Abd-el-Krim's forces fought the French in 1926, which is out of bounds, making a lake from McKens to the sea.

In France the Seine and Marne are rising and a recurrence of the great floods of 1910 and 1921 is feared.

Soviets Are Blamed For Chinese Trouble

Canon Leaders Accuse Russians In Note Handed To Foreign Consulates

Canon.—A note stating that the Russians were responsible for the recent Communist outbreak here and the burning of the city was handed by the Chinese authorities now in control to foreign consulates.

Arms, flags, and marked military maps proved beyond a doubt that the Soviet Consulate was headquarters of the Communists, the note said. It was stated that Russian consular general, instead of being released as planned, would be held until the incriminating documents were translated.

The note served as a reply to the statement of M. Tchitcherine, Soviet commissioner for foreign affairs, that the Soviet was not engaged in any plot to overthrow the Canton Government. It was stated that the Russians had extensive plans for bringing in a peasant army from the surrounding districts.

Plans Flight Over North Pole
Ottawa.—An Italian explorer, General Nobile, wants to fly over the North Pole next summer and Dr. Bonardelli, Italian consul here has been asked to secure from the Canadian Government maps and other data. Not much has been learned of the project apart from the fact that it is for scientific purposes. The flight would be in a dirigible.

Experiments show that it requires 800 pounds of grain and 900 pounds of hay to put 100 pounds of gain in fattening lambs.

W. N. U. 1714

To Fly Over London

Canadian Farmers To See World's Metropolis From the Air
London.—A unique sight-seeing tour has been arranged for the 125 Canadian farmers who are coming to England in January with the Canadian National Railways' Farmers Marketing Party. In addition to seeing London all the average man sees it—obtaining a woman's eye view from underground and a normal view from the top of a "bus" the visitors will see London as the birds see it, from the cabin of one of the most up-to-date air liners of the Imperial Airways, Limited.

As many of the Canadian farmers as desire to do so will be taken for a 20-minute "joy-ride" over London and down the Thames. Should a sufficient number signify their intention of taking to the air, two or even three of the latest "Silver Wing" passenger planes "de luxe" will be brought into service to cruise over London together. These air liners are the last word in aeroplane construction, carry 18 passengers, and are equipped with bags and easy chairs with a steward in attendance.

The flight will be made from Croydon Aerodrome, today known as Britain's premier air-port, where passenger aeroplanes take off daily for Paris, Amsterdam and other points on the Continent. Here the visitors will be conducted through the hangars by competent guides who will explain to them the various types of machines used in modern air travel.

Famine In China

Four Million In Shantung Facing Direct Extremity

Peking.—At least 4,000,000 in the province of Shantung and part of Chihli are facing extreme famine, more severe than expected to become, a committee of observers has reported. The report grew out of the Chinese international famine relief commission's appeal to the Red Cross for aid and the request of the Red Cross for more exact information.

A survey was then compiled by competent foreign authorities and observers. Thousands in Shantung were found already subsisting on bark of trees, chaff and grass.

While the Chinese famine relief blamed the drought and locusts, the committee thought that "civil war, banditry and constant taxation" were also equally to blame for Shantung's plight.

The peak of suffering was said not to have been reached yet. It will grow more intense from Chinese New Year, January 23, until spring.

Gives Brain To Science

Noted Russian Scientist Bequeathes Brain To Noted Collection

Moscow.—The "brain pantheon," founded by Prof. Vladimir Bechterev, noted Russian psychiatrist, to study the source of talent and genius, will shortly have a fourth brain added to the three already preserved—that of Prof. Bechterev himself.

The noted scientist, who has been devoting much time in recent months to organizing the brain pantheon which had been approved by the Soviet Government, died recently from paralysis of the heart after an extremely short illness. News of his death shocked the Russian scientific world deeply. Prof. Bechterev will be buried in the Pantheon.

Will Attempt To Break Speed Record

Automobile Race Driver Aims To Better Englishman's

Indianapolis.—Frank Lockhart, automobile race driver, will attempt to shatter the world's record of 203.79 miles an hour for a straight-away drive of a mile at Daytona Beach, Fla., some time between February 15 and 25. The record was established last year by Major H. D. Scragg, of London, England.

Malcolm Campbell, of London, Eng., and an automobile builder named White, of Philadelphia, are also said to be planning to try for the mark at Daytona Beach in February.

Soldiers Frozen To Death
Leigrade, June 26.—Clutching their rifles and in perfect marching order, the dead bodies of 17 soldiers, frozen in the cold wave a week ago, were discovered when the snow melted along the railway to Nish. Hungarian snipers had prevented a search for them before.

Had Long Military Career

Lieutenant-General Sir Edwin Alderson, commander of the Canadian troops in the great war, who died in London recently. He was many years old during a long military career. Sir Edwin was the author of several volumes.

Instruct Future Citizens

Arrangements Being Made For Study Of League Aims In Canadian Schools

Geneva.—Canada is instructing her future citizens in the aims of the League of Nations.

Ottawa informed the League that Manitoba had prepared a special chapter on the League which will be included in school reading and has adopted regulations requiring all students of the tenth grade in secondary schools to study a special pamphlet drawn up by the Canadian League of Nations Society.

The Lieutenant-Governor of the Province of Saskatchewan has made arrangements for study of the League in schools in that province, and Ottawa has called the attention of all provincial governments to the importance of teaching the doctrines of the League.

Honoring Mrs. Lindbergh

Will Receive Gold Medal From Detroit Board Of Education

Detroit, Mich.—The Detroit Board of Education has voted to confer a gold medal of honor upon Mrs. Evangeline Lindbergh "in recognition of the great value to this nation and the public school system of the qualities of motherhood she has exhibited."

This and her qualities of "patriotism, loyalty, valor, benevolence, courage, efficiency and the pursuit of the better and higher things in life" were cited by the board in adopting a resolution to confer the medal.

Mexico May Buy Airplane

Washington.—Deciding upon a "distinct relaxation of the air craft or war munitions embargo against Mexico, the state department granted a license to the Mexican Government to purchase the tri-motored plane in which Mrs. Evangeline Lindbergh flew from Detroit to Mexico City. The permission given to Mexico to buy the plane was the first step taken under the new policy.

Barred From U.S. Hockey

St. Paul.—"Spunk" Sparrow, forward on the Minneapolis hockey team, has been permanently barred from play in the American Hockey Association for his part in the free-for-all fight in the game between St. Paul and Minneapolis.

The Relic of Pioneer Ship Mounted

The glittering splendor of the Canadian Pacific Empire of Japan, pioneer trans-Pacific liner of the company, has been erected in Stanley Park, Vancouver, as an historic relic of the port. The Empress of Japan was put in the service a few years ago, her place in the service being taken by the greater Empress. The Empress of Japan held, as does her successor, the trans-Pacific speed and comfort banner. This old vessel,

MANY BRITISH SETTLERS COMING TO CANADA SOON

Ottawa.—The coming to Ottawa next month of Hon. C. Amery, Dominion Secretary of the British Government, probably will lead to a final determination of a large program of British migration to Canada. It was previously submitted to the British authorities some months ago but the decision was deferred until Mr. Amery had an opportunity of looking personally into the matter and securing first-hand information.

Considerable reference is maintained here as to details pending a formal discussion of the question, but the plan is known to contemplate an elaboration of the "family settlement scheme" by which, at the end of this year 3,000 families will have migrated. In the original period set, only 2,500 families came and hence the agreement was extended to cover the balance.

The new plan, however, will be different and generally speaking, if approved, will look to the establishment of groups or colonies of British settlers in parts of the country where the opportunities are considered most promising. While the movement would not be directed to unsettled localities, it would be designed to improve the standard of living of the people of the early stages of Western development in the nineties. A feature of the plan would be that which would provide for expert supervision by experienced people of the location of the groups and for assistance to them in the problems connected with absorption into Canadian life. The plan would be worked out on a basis of cooperative contribution by the British and Canadian Governments.

It is stated that the success of the Empire settlement plan, confined largely to soldier lands, having been demonstrated the new scheme, if given effect will eventually lead to the migration of as many as 20,000 families.

The Sun also said that the success of the Empire settlement plan, confined largely to soldier lands, having been demonstrated the new scheme, if given effect will eventually lead to the migration of as many as 20,000 families.

Extols Work Of League

No Other Power Could Settle Polish-Lithuanian Dispute Says Senator Dandurand

New York.—No power on earth except the League of Nations could have effected a settlement of the difference between Poland and Lithuania this year, in the opinion of Senator Raul Dandurand, Canada's representative on the council.

The leader of the Canadian Senate returned from Geneva on the Mauretania. Acceptance by the two countries of the declaration of the League of Nations could have effected a settlement of the difference between Poland and Lithuania this year, in the opinion of Senator Raul Dandurand, Canada's representative on the council.

Strengthen Canadian Navy

Government To Seek Authority For Purchase Of Two Modern Destroyers

Ottawa.—The Government will seek authority at the coming session of parliament for the purchase of two modern destroyers to be delivered within three years. The new destroyers will replace the Patriotic and Patriot. The Patriotic and Patriot will be sold out of the Canadian navy. Construction of the first of the new destroyers is to be commenced at once. In the meantime, arrangements have been made with the admiralty to obtain two destroyers to carry on with until new craft are ready. They are H.M.S. Torbay and Torador, and the Canadian Government has authorized the commencing of work forthwith at Portsmouth to recondition the vessels and bring them forward for Canadian service.

It is expected they will arrive in Canada toward the end of March.

The Torbay and Torador were built by Thornycroft and belong to the same group as the 8 class admiralty destroyers. Eight of these compose the eighth destroyer flotilla in commission on the China station. There is no commission and two are in reserve in the Australian naval service. One is in reserve commission on the Mediterranean station.

Compensation For Lindbergh

Estimated That He Has Earned Quarter Of A Million

New York.—The New York Sun says: "Since his Paris flight it is estimated that Col. Lindbergh has earned about \$250,000. The Orteig prize was \$25,000; the profit from his book 'We,' and his newspaper articles was estimated at approximately \$200,000, and it was said that he received \$25,000 from the Guggenheim fund to finance his tour of the United States.

The Sun also said that the success of the Empire settlement plan, confined largely to soldier lands, having been demonstrated the new scheme, if given effect will eventually lead to the migration of as many as 20,000 families.

NINE VICTIMS OF POISON ALCOHOL IN WINNIPEG

Winnipeg.—Wood alcohol and "canned heat," consumers of which are stricken blind and die in frightful agony, have claimed nine lives in Winnipeg, and another man is suffering terribly and may succumb.

The deaths followed a "death party" in the Coronation Block, 228-King street, in the heart of the Chinese district, where a fatal drinking bout was staged by about a dozen addicts of "canned heat," and those who have not succumbed, are terribly ill. Most of the poison liquor addicts groaned and writhed in frightful agony as they slowly succumbed to the terrible ravages of the "canned heat" or wood alcohol.

Police investigations have led them to believe that the alcohol was bought from a Main street drug store. This morning they found three bottles of methyl-hydrate, labelled "poison" in red lettering, in one of the rooms. There was no one in the room at the time.

According to police, more than 25 deaths from alcoholic poisoning have occurred in Winnipeg during the past two years.

Reduced Express Rates

New Schedule Of Rates On Small Parcels Goes Into Effect

Ottawa.—Canadian Express companies announce reduced rates for the shipment of packages up to fifteen pounds in weight and over three feet and a half feet in length, width or depth. The new schedule has been filed with the board of railway commissioners for Canada by the Express Association. The change takes effect January 1 and continues the former arrangements of protection against loss or damage up to fifty dollars without extra cost.

The reduced rates are calculated on packages ranging from 5 pounds or less, 6, 7, 8, 9, 10, and 11 to 15 pounds inclusive. The Maritime provinces are grouped as one. Between the same points in any province the rates are from 30 cents to a maximum of 50 cents to a maximum of 90 cents to a maximum of \$1.05 for the longest haul for the maximum weight of 15 pounds.

In no case can the length and girth of a package exceed six feet in length. The reduced charges will not apply to money, bonds, bullion, securities, live animals, birds, lead goods, liquid oils or grease unless packed in sufficient absorbent.

Working On Mine Railway

Supplies Are Being Rushed Into The Pas District

The Pas, Man.—Engineers of the Canadian National Railways are burying supplies into The Pas district for an early start on the construction of its 85-mile mine track. Two of the system's locating parties, numbering 50 men, are already at work under the direction of Frank Haven, reconnaissance engineer.

At present there are between 250 and 275 men employed on the construction of the work under the direction of K. A. Ramsay, superintendent. These men are preparing right of way through muskeg country overlying limestone rock and boulders and thickly timbered with trees of medium growth.

Cutting of the right of way starts at the ballast pit four miles from the spur and the objective for the winter is Cranberry Portage, 60 miles further on, according to H. A. Dixon, chief engineer of the western division of the Canadian National Railways.

The Death Toll

Final Figures Show That 32 Children Lost In Quebec Fire

Quebec.—According to Rev. Mother St. Romuald, superior of the Hospice St. Charles, the death toll in the conflagration which destroyed part of the institution for the blind December 14 cannot be greater than 32.

She added that 28 children remained to be brought back to the hospice but that definite trace of all of them had been secured. So far 30 bodies have been recovered. Reports to the effect that parts of other bodies had been found were discounted by the coroner.

At the Molson morgue it was stated that as much as half the bodies had been made, while the mother superior said that as far as she knew the reports were false.

THE COLEMAN JOURNAL

Published Every Thursday at Coleman, Alberta. H. T. Halliwell, Proprietor.

THURSDAY, JANUARY 5, 1928

Religion is alright, in its place, but it can defeat its own objective if worn too much on the sleeve.

Last Saturday morning's low temperature record had even the old-timers faded, as one frankly acknowledged he had never known it to be so cold in Coleman.

There are some who seem to fancy that because they pay a dollar membership fee to an organization their duty ends there. As an instance of this, attendance at the Coleman Board of Trade meetings seems to confirm the fancy into actual fact. Here is a town with great industrial possibilities, which quite a number of business men appear to be quite indifferent about. Yet they expect a town to progress. Progress will come only to the extent that we exert ourselves to make Coleman a better place to live in and interest others in.

It is hoped that with the erection of a new telephone exchange at Blairmore as soon as conditions permit; that there will be a little speeding up of the service generally. Connections are often very slow in being made, making one feel at times like giving vent to his expressions in a rather forcible manner. The cost of the service is such that it should be as efficient as in the larger centres. Instead, many annoying delays are often suffered, either through lack of attention or poor equipment. It needs "pepping up."

Last years tourist business was valued at \$200,000,000 to Canada. Surely the towns of the Crow's Nest Pass, Coleman included, should interest themselves in securing a slice of this new business.

Trifling With Justice

The manner in which criminals are defended in the courts of the United States causes mild disgust in the minds of people on this side of the border. No sooner is a murderer arrested, as in the case of this Hickman, slayer of Marian Parker, than immediate efforts are made to prove his insanity. In the case of Mrs. Snyder and Gray, convicted of the murder of the former's husband, a sympathy hearing is agitated for after they have been sentenced. We are old-fashioned enough to believe in the sentence of the courts being carried out and that the punishment should fit the crime, regardless of excuses and frame-up that are made with a view to enabling the guilty parties to escape the fate they so richly deserve.

Highest Honors in Police First Aid

The highest honors in first aid work among police teams in Canada this year were carried off by the Angus Works Police Team No. 1 of the Canadian Pacific Railway in winning the Sherwood Police Championship, in open competition with all uniformed first aid police teams throughout the Dominion. This team also won the Shaughnessy Shield, representative of the police championship of eastern Canada.

The awards and medals were presented recently in the board room of the Canadian Pacific in Montreal in the presence of E. W. Bentley, chairman and president of the C. P. R. and a representative gathering of the Company's officials, including Grant Hall, being vice president, A. D. MacTier, vice president of eastern lines and J. J. Scully, general manager of eastern lines. The Sherwood Trophy was presented to the members of the team by Col. D. T. Irwin, C.M.G., past president of the St. John Ambulance Association and connected with it since its inception. The various officers present expressed their congratulations to the Angus team for the honors brought to themselves and to the railway company in general. During the same presentation several other Dominion awards were presented to Canadian Police teams. These included the Montmartre trophy, representing the open championship of the Dominion which was won by the Chaplain Ontario team; the Wallace Nesbitt Trophy, symbol of the open railway championship of Canada, the status of Maine and Michigan, won by the Toronto Freight Office team and the Ontario Provincial Championship also won by the Toronto Freight Office.

Members of the team are from left to right back row: Constable A. Allan, Inspector J. MacFarlane and Constable E. Sharpe. Front row: Constable P. O'Neil, seated behind the Shaughnessy Shield and Constable F. Pettit, again of the team who is seated behind the Sherwood Shield. The cup in the centre is the Johnson Cup representing the championship of Angus Works.

There was a wild scramble on the part of the school children on Tuesday morning. A large number were late and the train being late on its arrival, some of the teachers were also late in returning from the various places they had been visiting during the Christmas holidays. By Wednesday conditions had returned to normal and the schools have settled down till the next holiday, which is at Easter.

Every mother should read about diseases common to children and with the excellent health literature at her disposal from the Red Cross Society there is no longer any excuse for ignorance. A package of literature will be mailed to any home in Alberta free of charge. Write direct to the Red Cross, Civic Building, Edmonton, for reading on the subject of communicable diseases.

Cold weather throughout the west had the effect of causing car shortage for coal delivery from Alberta mines.

Monday night the Shamrocks will hold a dance in the K. of P. Hall.

Here and There

In accordance with its new policy the Department of Health at Ottawa has appointed twenty physicians as inspectors of immigrants in European cities. They are to report for duty at once.

Manager D. McNair, of the Associated Growers, states that at the end of last week 100 cars of "Mac" (Macintosh Red apples) left the Okanagan Valley for New York and that 50 cars of Jonathan will move out to Sweden, South Africa, Great Britain and New Zealand.

The Canadian Pacific Railway is again offering a prize of \$100 to the Canadian showing the best spring wheat at the International Hay and Grain Show in Chicago, it was announced at the offices of the agricultural department of the company. The show will be held in November.

The grand total of Canadian trade for the twelve months ended August was \$2,351,000,000, as compared with \$2,314,000,000 for the year before. Import figures are up and exports down; the former being \$1,090,000,000, as compared with \$957,000,000 the year before and exports \$1,264,000,000, as against \$1,357,000,000.

A boom in muskrat farming is on the horizon in Western Canada. Following the acceptance by the Provincial Governments of the Prairie Provinces of the Dominion Government's offer to turn over swamp lands to them for leases to residents for purposes of muskrat farming there has been a deluge of applications. Alberta has had 200 of them and Saskatchewan over 500.

British Columbia is capable of producing all the bulbs, rose bushes, fruit trees, ornamental trees and seeds that the Canadian people can use, it is claimed by authorities here. Millions of dollars each year go out of Canada for nursery stock that could be raised in British Columbia and delivered to the buyers several weeks earlier than it could be imported from overseas.

MacLean's Magazine

Twice a month—24 issues a year.

\$2.00 for 1 year

\$5.00 for 3 years

In 1927-8 the editorial plans for MacLean's include the printing of five booklength novels, four novelettes, 108 short stories, 215 major articles of Canadian National interest.

In short, approximately, 355 main features.

Approximately 308, that is to say, 92 per cent. of the editorial contents of MacLean's Magazine it is estimated will be contributed by Canadians.

This is a big buy for only \$2.00 for one year.

The United Church

The Sacrament of The Lord's Supper will be observed at the morning service on Sunday next, January 8th. Members and adherents are asked to make an effort to be present at this first communion service of the year.

There will be no midweek service this week. In place of it there will be a preparatory service on Friday evening at seven o'clock. The regular Wednesday evening service will be held next week and will then continue for the rest of the season.

The schedule for groups and clubs will be followed again beginning on January 16th.

Transportation Epic of North America

(1) "2300" Pacific type locomotive that represented the Canadian Pacific at Baltimore. (2) Head-on view. (3) Early B. & O. engine at the Pageant. (4) The "Atlantic" of 1825 vintage. (5) Peter Cooper's "Tom Thumb", built in 1825, the first locomotive in North America.

The epic of transportation in America from the days when Indians trekked across the plains with their luggage on poles dragged by dogs and ponies to the present with 250-ton locomotives thundering across the country hauling hotels on wheels at 70 miles an hour was enacted at Boston recently during the Centenary Exhibition and Pageant of the Baltimore and Ohio Railroad this fall.

Canadian interest at the "Fair of the Iron Horse" was keen as this country was represented at Baltimore by the latest achievements in the way of locomotive construction. The Canadian Pacific Railway was represented by its finest and fastest passenger locomotive, the latest type of their "2300" Pacific class locomotive, number No. 2333, which drew the Prince of Wales, Prince George and Premier Baldwin during their recent trip across Canada. Engineer W. R. Croighton (who has been with the Canadian Pacific 24 years) and Fireman R. F. Thomas (22 years) not only piloted the Prince of Wales train, but took the locomotive from

Toronto to Baltimore for the Fair of the Iron Horse. This locomotive is capable of a maximum speed of 90 miles per hour, weighs nearly 500,000 pounds and can handle 16 steel cars on fast schedule.

On the opening day of the Pageant this powerful engine took its place alongside a half dozen other giants from the roads of various countries. Notable among these from across the water was the huge new "King George V" pride of the Great Western Railway and the fastest that England has produced. During the opening parade of these locomotives the band played "Land of Hope and Glory" and "Rule Britannia" in honor of the of the countries they represented.

The Pageant is recognized to have been the greatest transportation exhibition ever staged. Every period of railway history since steam was first used for railway locomotion was represented and the result was a strange collection of contrivances that made the crowd stare in wonder as they puffed along under their own steam. The 250-ton marvels of present day railroads they professed

to accept as something tangible but not the curios that have been preserved from nearly a hundred years back. Perhaps the most interesting 35-day exhibit was Peter Cooper's "Tom Thumb" the first locomotive built in North America being constructed in 1825. The backers of the B. & O. railroad were so impressed with it and the evident value of steam that they were willing to go ahead and organize the road a century ago.

Real Indians added a romantic dash to the scene. They whopped past the crowds on their feet and ponies and then returned to guide the visitors down to view their encampment a short distance away.

One of the outstanding features of the Pageant was the dress of those who manned the old-time trains and the passengers who made the journey each day around the tracks in front of the crowds. The costumes were true to the period which the locomotive and train represented and added sufficient color to make the exhibition one of the most picturesque and historical yet staged.

Here and There

Work on the erection of the Minas Basin Pulp and Paper Company's plant at Hantsport has begun, together with work on the railway siding connecting the plant with the main line of the Dominion Atlantic Railway.

The value of the Western Canadian grain yield this year is figured at \$1,000,000,000 by a financial firm making a survey of conditions at Winnipeg. Wheat is put at \$55.50, 804,729; oats at \$166,428,382; barley at \$62,887,903; rye at \$18,628,381, and flax at \$1,955,815. They and other grains are included in the grand total.

The Eastern International Dog Sled Derby will be held this year at Quebec City, February 20, 21 and 22, according to information given out by the tourist department of the Canadian Pacific Railway Company. The leading drivers from all parts of the Continent will take part. The race is over a 120-mile course with an average of 40 miles a day.

Montana farmers are hauling grain to stations on the Canadian Pacific Railway lines just north of the international boundary line in South-western Saskatchewan. Some 50,000 bushels are on the move there on sale to the Wheat Pool. It is remarkable that the Montana farmers are paying the duty and receiving about \$5 per load more than if delivered to the elevators located along the Montana route.

"The tourist crop is the next best crop to that of wheat in the Canadian West," said C. B. Foster, passenger traffic manager of the Canadian Pacific Railway, visiting Winnipeg recently. "Canadians are now capitalizing our splendid winters," he said. "It used to be our custom to decry them, but we have since learned their appeal to the stranger as well as ourselves and are profiting by it."

Quebec City is preparing for a record winter sports season, according to Jack Strathdee, newly appointed winter sports director at the Chateau Frontenac. Strathdee comes to his new field of activity with a wealth of experience, having promoted door sports in the Muskoka Lakes region and more recently at the French River Bungalow Camps of the Canadian Pacific Railway.

Saskatchewan heads the provinces of Canada in growth of revenue from tourist traffic, according to the Dominion Bureau of Statistics, dealing with the calendar year-1926. The gain over the previous year was over 100 per cent, while Manitoba was the only other province with a revenue increase of more than 25 per cent. The tourist business for the whole of Canada has risen from \$5,724,700 in 1925 to \$18,643,400 last year. It is thought to contribute \$100,000,000 to Canada's favorable balance of trade.

Of Canada's four great sources of wealth — field, forest, mine and stream — the forest has steadily pushed forward until it now holds second place, particularly in the exports from the Dominion. For the 12 months ending September 30, last, grain and grain products exported were valued at \$464,000,000; metals \$160,000,000 and newsprint \$120,000,000, to which should be added to show the whole exported wealth of the forests, manufactured and unmanufactured wood valued at \$160,000,000, making the forest aggregate \$280,000,000.

CHAPTER XV.—Continued

The men gasped. Wasn't Jack Doran "the queer devil" to ask a girl right out before every one?

"Will you marry me, Helmi, to-day?" he repeated.

Helmi simply nodded.

A shout of applause broke from the men, in which little Larsen did not join. He suddenly halted Mrs. McMann for her interesting ways; she'd made nice hauls of things.

Mrs. McMann's face grew dark; she had been beaten, right here in her own house. Worse still, she stood to lose the best girl she had ever had. Jack Doran, with his big, feisty ways, would never let his wife slip him to the winners. Mrs. McMann caught her breath on the infatigable.

"Well, at least you might have given us a little warning. What's all the rush about, I'd like to know. It doesn't look well—that all I have to say!" Mrs. McMann repeated youth more and more as she grow older. The silence and agility of Helmi reproached her ponderous bulk, and now, looking at the boy and girl, so clean, like and wholesome, who stood before her, she felt she hated both of them. "They seemed to defy" her; "crazy young fools—what did they know about life? She hoped . . ."

She blew her breath on her lips as if they needed to be cooled.

CHAPTER XVI.

That afternoon Helmi and Jack drove to Hanneman, eight miles away, to find someone to marry them. Helmi wore the black silk dress which she had worn on the train with the lace collar, fastening the latter with the sun-burst which Jack had given her at Christmas.

Mrs. McMann was horrified at the thought of Helmi being married in black. "It isn't appropriate, I fancy," she said, "but you know the saying: 'Married in black, with you'll luck!'"

Helmi laughed her little world was pulsing with joy; she hardly knew Mrs. McMann's joyful protest. The mountains were bright with sunshine, the ice had gone out of the river, the world was very fair.

"Jack Doran is only a boy," said Mrs. McMann, "and I believe he will let you right out like that!" Helmi's eyes were "pools of repose," "I fooled him—didn't I? That Jack!"

YOUNG WOMEN SUFFER MOST

These Two Found Relief by Taking Lydia E. Pinkham's Vegetable Compound

Ayer's Cliff, Quebec.—"I have been teaching for three years, and at these times, the pain comes every year. I have tried and have no appetite, was a few times each month too, having pains in my back, until sometimes I was obliged to stop working. A friend recommended Lydia E. Pinkham's Vegetable Compound to me, and I heard many women telling how good it was so I thought it would help me. And it did. Now I take six bottles every year and recommend it to others." DONALD FAITEUX, Ayer's Cliff, Quebec.

"Unable to Work"
Canning, Nova Scotia.—"I had irregular periods and great suffering at these times, the pain came every year, vomiting and fainting. I was teaching school and often for some hours I would be unable to attend to my work. Through an advertisement in the paper I knew of Lydia E. Pinkham's Vegetable Compound, and it has been of great benefit to me, the trouble being completely relieved." LAURA J. EASTON, Canning, King's County, Nova Scotia.

W. N. W. 1714

the back seat, stared jauntily from his neck, and the condition of his shirt gave evidence that there had been some disappointment over his last week's laundry. Tufts of hair, like small brushes, grew out of his ears; his eyes were bloodshot, his voice hoarse. Indeed, Mr. Blackwood looked and felt much like a dog that has barked all night.

"What is it, he—do you want?" he asked, when he opened the door. The words, though ungracious, were spoken in the well modulated tone of the cultured Englishman—the voice that one hears in the music hall, and most unexpected corners of the earth. Jack paused a moment before replying. "Are you a Justice of the Peace?" he asked in surprise.

"I'm everything, damn it! I keep the pound, am clerk of the township, do book-keeping for the storekeepers, and play poker. What can I do for you?"

"We want to get married," said Jack, smiling. No one could quarrel with Jack Doran on this day of days. He felt Helmi's hand tighten on his arm, and noticed she was pale and frightened, but Jack had no feeling as yet for this girl, and dignified old man.

"Come in," said the Warden, at length, "come in and sit down." He left them to solve the problem of sitting down as best they might. Every chair carried its own burden of clothing, papers, cooking utensils, and other bric-a-brac. A horse-collar occupied one; a pair of rubber boots another. A square red stove stood in the middle of the floor, its damper hanging drunkenly from one corner; ashes from its end door had dropped down and were tracked over the floor.

A tumbled head, visible through the open door of the room adjoining, gave the impression that Mr. Blackwood had but recently left it. The table in the room was full of dirty dishes and empty bottles.

Something prompted the Magistrate to apologize.

"There's a lot of women here, but they're too damned independent to do a day's work since the women got the vote. I'd like to see them slowly starving and freezing to death. Damn foreigners that they are, never should have been let come into a white man's country, anyway. Bohemians and Finns."

Complex Is the Same

Chicago Mayor Not Any Sadder Than

Down at Tonopah a few days ago a desert character, one "Two Gun" Smith, paraded the camp with his announcement he had \$3,000 in money and that he wanted to give it all to King George who he could come to this country and live. He was committed to the insane asylum by his fellow citizens. Over in Chicago, William Hale Thompson started the city with banners declaring that he was going to drive King George out of the school books and public libraries, and they elected him mayor. The complex is the same. The difference between the two cities is that Tonopah knows a lunatic when she sees one. Here she doesn't.

Purpose of National Parks
Canada's national parks exist to render the best possible service to Canada and Canadians. Their establishment and development are based upon the idea that the Dominion's greatness as a nation depends not so much upon her natural resources as upon the quality of her men and women.

A French scientist claims that bees are guided solely by color, and will often pass a scentless flower stored with honey for one having sweet perfume and little sugar.

A man is in luck if he finds a friend on an umbrella and lives long enough to get it back.

WAS SO NERVOUS AND SHORT OF BREATH COULD HARDLY SLEEP

Mrs. Louise Reglin, Golden Lake, Ont., writes: "For several years I was greatly troubled with my nervous system, and I had to go to bed at night, and I could hardly sleep at night, and I found a cure for a while I had had."

"I managed to keep at my work, somehow, until I began to have dizzy spells which got so bad I had to give up. I used many kinds of medicine, but found no help until I got a box of Dr. Williams' Pink Pills for Pale People."

"I found a great change, and after a few days I was as well as I could be. I told my mother, who had chronic sensations, and she and I both took them and they helped her greatly."

Price 50c. a box at all druggists and dealers. Get the Dr. Williams' Pink Pills for Pale People. Dr. Williams' Pink Pills for Pale People, Toronto, Ont.

Mathematics of Relativity

Queer Tricks Played By Roasting Earth Are Explained

The News says: A freight train going from Detroit toward New York weighs less and travels faster than when it is going back to Detroit. The answer is neither "Now I'll tell one" nor "You're old man." It is the mathematics of relativity, farthest from the human mind into the unknown, or, possibly, a miracle.

That mass loses weight when moving east and travels faster than it appears to do, is the belief considered unduly true by many relativist philosophers who are eminent in the mathematical field.

A piece of lead travelling on a train from Detroit to New York which moves at a speed of 25 miles an hour would actually be going 26 plus 1,000 or 1,025 miles an hour, writes Thomas M. Johnson in Popular Science Monthly. This is because the earth rotates outward 1,000 miles an hour. When the train goes westward, however, the lead only travels 375 miles an hour.

The lead would lose weight in easterly motion, for in that direction the earth has a greater tendency to fly off the earth's surface because of the increased speed developed.

Relativity also claims that a perfectly accurate clock hurrying through space at a speed of light would not show that any time had elapsed. The time is slower in Ecuador than in England, and that the shortest distance between two points is not always necessarily a straight line. You have to do a whirligig of reason to understand relativity.

Prairies Are Optimistic

Desired To Play Important Role In Revivifying Life Of Canada

"There is a very marked optimism pervading the western provinces about the economic situation," stated W. M. Clarke, secretary of the Canadian Chamber of Commerce, who has returned from a five weeks' visit to the western provinces. The president of the Canadian Chamber of Commerce, A. M. Dollar, of Vancouver, and the chairman of the executive, W. M. Bliss, accompanied by Mr. Clarke, left Montreal toward the middle of November with the object in view of visiting the Boards of Trade in the prairie provinces. "Although there is a pronounced feeling throughout the prairie that the West is destined to play an increasingly important role in the economic life of Canada. There is also an evident desire," stated Mr. Clarke, "on the part of the urban Board of Trade to work with the agriculturists for the common welfare, and it was unanimously clear that class consciousness is receding before the greater force of economic co-operation in Western Canada."

To Assist Aviation
Civil government air-barriers will be open to the use of aircraft operators to the extent that their size and facilities allow on payment of moderate fees. This was announced by the Minister of National Defence. This step is taken to assist in the development of flying and the provision of flying facilities throughout Canada.

A Scotch countryman entered a store with the view of purchasing something for his sweetheart. The salesman suggested an umbrella, a pair of stockings or possibly "something for her neck."

"The very thing," responded the countryman. "A cake of soap."

Minard's Linctant for Sore Throat

Wireless Beacons For Planes

Machine Will Indicate Course By Strength Of Signals

Wireless lighthouses, or beacons, have been erected by Trinity House round the British coast to assist vessels in taking bearings in foggy weather, but the United States is showing the way with an ambitious system of wireless beacons to assist aircraft.

There are in the United States twelve private aviation companies who have flown 766,251 miles in the last three months, regularly transporting mail and passengers over 8,000 miles of air routes. It is planned to establish a network of wireless beacons at intervals of 2-30 miles along these airways.

The directive properties of the frame aerial will be employed and the transmitter will have two aerials erected at right-angles to each other, each radiating signals in the direction in which it points. An aeroplane flying along a line of equal distance between two transmitters will receive audible signals of equal strength from each transmitter, but when turning in its course to left or right it receives one signal of greater intensity than the other.

These signals can be received on an ordinary receiving set, no special direction-finding apparatus being necessary. The aeroplane will therefore "ride" on a slender ray of directed wireless.

A World Famous Figure

Captain Gordon Campbell, V.C. Commanded "Mystery Ship" During War

It is understood that the regulations now governing retirement will shortly be off from active list of the Royal Navy several well-known captains who did distinguished service in the Great War. Among these, it is reported, will be Captain Gordon Campbell, the famous Mystery Ship. V.C. Captain Campbell was a lieutenant-commander in 1914. Before the war ended he had become a captain, V.C., and a world-famous figure. The Mystery Ship or "Q" ship as it was officially called, practically originated with him, and his lights and narrow escapes with submarines were frequent and most thrilling.

The "Q" ship was a fighting vessel disguised as a tramp, and carried a navy crew dressed in keeping with the supposed character of their ship. Captain Campbell is credited with having lost one ship in a scrap with a submarine and having been back at sea in another ship hunting U-boats before nightfall.

Fruits On the Prairies

Great Variety Of Home Grown Fruits Found On Prairie Farms

An inspection of 3,812 farms in the provinces of Manitoba, Saskatchewan and Alberta made in 1927, showed that 3,811 had good vegetable gardens. 1,258 were growing sugar beets; 379 had ornamental shrubs; 265 were testing standard apple trees and 213 were growing plum. Twenty years ago the number of prairie farms with fruit trees was 1,200. These beds of refractory fruits are very extensive and are used in the manufacture of fire brick, stoneware, pottery, glazed drainage pipes and porcelain ware.

Salvors Preferred Jail
Sixteen allors from India rebelled against further service on their ship when they learned that it was going to America. Arrested, they explained that they feared they would die from the cold in America. So their ship left for Norfolk, Va., and they went to jail for a month.

Minard's Linctant for sore throat

When a housekeeper sees his wife terrified by a garden worm, he writes down the name of where he stands in the scale of creation.

In excavating the third wall of the city of Jerusalem a stone ball shot from the city during the Roman siege was found.

Queen Elizabeth of England was the first woman to wear a pair of machine-made silk stockings, the gift of the Rev. William Lee, of Nottingham, inventor of the first knitting machine.

Excuses are the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best known is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

A spoonful of Phillips' Milk of Magnesia neutralizes instantly many directions—any drugstore.

Quickly Banish the WORST COUGH
THE REMEDY YOU BREATHE

Little Helps For This Week

Even so, Father: for so it seemed good in Thy sight."—Matthew vi. 26. For naught can come as taught hath God.

But what my Father hath foreseen. And what shall work my good. What he gives me I will take. What he chooses I will make. My choice with thankful mood.

—Paul Newman.

If God gives us much, we are bound to be thankful and use it for Him. He gives us but little, we are bound to be content and cheerfully to enjoy Him in it.—Matthew Henry.

THIN, Watery Blood ALWAYS DANGEROUS

If Not Corrected Serious Results Sure To Follow

In no trouble to delay neglected more dangerous than in anemia, thin, watery blood. It is very common in young girls and in persons who are overworked or consume too much alcohol. It makes its approach in so stealthy a manner that it is often well developed before the trouble is recognized.

But taken in time the tonic treatment through the use of Dr. Williams' Pink Pills so enriches the blood that good health and strength is speedily regained. The result of anemic condition is that Dr. Williams' Pink Pills is as certain as anything that will cure the trouble. Dr. Williams' Pink Pills have done for me. I was suffering from a badly run-down condition. I was very nervous, had little desire for food, and would feel tired out at the least exertion. In this condition I began taking Dr. Williams' Pink Pills, and before using them very long found my health gradually improving, and under their continued use was completely restored. For this reason I earnestly advise all weak girls, who are suffering from this trouble, that they need for others what they did for me.

Send your name and address to The Dr. Williams' Medicine Co., Brockville, Ont., and they will mail you a useful little book on "Building Up the Blood." The pills can be obtained through any druggist or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Ship Commission Clays To U.S.
White burning clays from Southern Saskatchewan are being shipped in quantities to the United States, where they are manufactured into white-ware such as dishes, "retical" porcelains and floor and wall tile. These deposits are situated to the south of Moose Jaw in a rich grain growing country. These beds of refractory clays are very extensive and are used in the manufacture of fire brick, stoneware, pottery, glazed drainage pipes and porcelain ware.

Salvors Preferred Jail
Sixteen allors from India rebelled against further service on their ship when they learned that it was going to America. Arrested, they explained that they feared they would die from the cold in America. So their ship left for Norfolk, Va., and they went to jail for a month.

Personal and Local

Mrs. L. Lindo is at present visiting with relatives at New Dayton, Alta.

At the Legion club room a number of the comrades welcomed the new year and "a most pleasant time was had by all."

We have Orange Weeks, Tomato Weeks and many other kinds of weeks, and now somebody suggests a "Mind Your Own Business Week."

The Journal acknowledges Christmas greetings from Mr. Alex Cameron, who is spending the holiday season at Toronto.

Mr. and Mrs. Evan Morgan of Blairmore and family spent the New Year's holiday with Mr. and Mrs. G. Morgan in town.

Typewriter ribbons, for all machines, carbon paper and Remington portable typewriters can be obtained at The Journal office.

Mrs. H. E. Gate was a visitor to Calgary for the new year holiday, returning to Coleman on Tuesday morning.

Mr. and Mrs. Jones recently arrived to reside in Coleman. Mr. Jones being storekeeper at the McGillivray Coal & Coke Co., Ltd.

"No bottle—no milk" is the policy of Coleman dairies. It would be well to look up their announcement in this issue so there will be no excuse in not knowing of the new rule.

Miss Florence Cox, graduate of the Jean Carroll School of Beauty Culture, Calgary, will do manicuring, etc., in the evenings and on Saturdays by appointment at Mrs. W. G. Fraser's. Phone 295D.

You can contribute greatly to your own happiness and that of others by always taking the cheerful outlook on life, no matter what the trials may be. Life cannot be all sunshine.

Arrangements are being made by the local branch of the Canadian Legion for a grand concert in the Grand theatre on Burns' night, further particulars of which will be announced as soon as the program is completed. Keep this date in mind, Jan. 26.

Mr. W. J. Harris, violinist, held concerts this week at Natal and Michel, being assisted by pupils of his in those towns. He plans on holding concerts in other towns in the Pass, the main object of which is not only to give good musical programs but to stimulate a general interest in musical education among the younger people in the various towns.

During the recent cold spell it was reported that the temperature was 60 below zero at McLaren's lumber mill. No official confirmation however is given of this, and there appears to be quite a variation recorded by various thermometers. But after it gets to 40 below another ten or twenty degrees doesn't seem to make very much difference.

Coleman Bakery
None Nicer Made

Art O'Neill, of Coleman, was in Blackie on Saturday and he was accorded a hearty greeting by his numerous old friends from town and district who were more than delighted to meet him. Mr. O'Neill was engaged until four years ago with Mr. Reg. McDonald in the running of the Blackie Trading store and made many fast friends. Mr. O'Neill is engaged in the auto business at Coleman—High River Times.

People thought that Friday was cold, and when the newspapers forecasted a cold wave for the New Year, believed it was already at its worst. But Saturday morning—at all previous records this winter in to the background, and even though one did not have a thermometer, it required no stretch of the imagination to impress them with the fact that it was colder than ever before this winter or for several winters.

LEOSKY, LEDIEU & CO.
